ACADEMIC BACKGROUND

Bachelor of Engineering (B.E.) in Information Technology
University of Mumbai
Theem College of Engineering | 2023

Diploma in Information Technology (Polytechnic)
Vidyalankar Polytechnic
2020

CERTIFICATIONS

Full Stack Java Developer Certification – 2024

- Core Java | Servlet | JSP | Hibernate | Spring Core | Spring MVC | Spring Boot | Rest API | Microservices | HTML | CSS | Java Script | React.js | JWT Authentication | DTO | MySQL.

Case-Study / Assignments

➤ **Online Voting Application**

- Designed and developed a secure, scalable web-based Online Voting System enabling citizens to participate in elections
- Digitally.
- Built robust backend services using Spring Boot and RESTful APIs to manage voter registration, authentication, and vote
- Casting.
- Implemented role-based access control for Admin and Users to manage candidates, elections, and results efficiently.
- Integrated MySQL database for secure storage and management of voter, candidate, and voting data with proper
- Validations.
- Ensured data integrity and security by preventing duplicate voting and maintaining confidentiality of votes.
- Developed and tested APIs using Postman, with effective exception handling for seamless application performance.
- Followed MVC architecture and applied design patterns to ensure clean, maintainable, and scalable code.

➤ **SMART SIDBI Multifunctional Appraisal and Rating Tool**

- SMART is a web based enterprise application used by SIDBI to manage the end-to-end credit appraisal, rating, inward processing, due diligence and sanction workflow for loan proposals.
- The platform acts as a centralized system connecting online loan applications, inward processing, appraisal workflows, pre-sanction visits, rating activities and reporting.
- Based on the user manual, SMART supports business users across Branch Offices (BO), ELSC units and other credit processing teams.
